

# Fire Department Calculation

First 1000 Sq.Ft. is \$300.00

Additional SF over 1000 Sq.Ft. is calculated at \$0.09

## **EXAMPLE**

Project is calculated at 12,380 Sq. Ft.

First 1000 Sq. Ft is calculated at \$300.00

Additional 11,380 Sq. Ft. will be calculated at \$0.09

$11,380 \text{ Sq. Ft.} \times \$0.09 = \$1,024.20$

$\$1,024.00 + \$300.00 = \$1,324.20$

## **Cross Check Sq. Ft. Calculation for Asbestos**

$\text{PX (Price)} - (\text{Minus}) 210 - (\text{Divided By}) 0.09 = (\text{Equal}) \text{ Sq. Ft Total}$

$\$1,324.20 - 210 = 1,114.20 / 0.09 = 12,380 \text{ SF Total}$
